## Presentation with Home Instead: Understanding Parkinson's Disease

**Date: Wednesday, April 17, 2024.**

**Location: The Shores of Port Credit**

Did you know that Parkinson's Disease (PD) has existed for over 200 years? Yet, despite all this time, many aspects of the condition largely remain a mystery to scientists and medical professionals. That is why many organizations aim to promote Parkinson's awareness not in hope of finding a cure, but to help individuals and families who struggle with the symptoms of PD.

Join us in our Theatre for a presentation from Home Instead, a local senior care services organization that provides
